

ITDX26 Deck Outline — 18 Slides

Slide-by-slide title, key claim, and evidence artifact

Event	ITDX26 — U of Arizona Sierra Vista, 8–18 Sept 2026
Track	Algorithm-only, unclassified, laptop-based evaluation
Solicitation	W91RUSI-FCID260001 (SUB-007)
Submitter	Mycosoft, LLC · CAGE 9KR60 · UEI YK3ARVKJ77S9
PI / POC	Morgan Rockcoons, Founder & CEO · morgan@mycosoft.org · (619) 483-1077
Handling	UNCLASSIFIED // PROPRIETARY
Version	FormSpace overlay v1.0 — 2026-09-01

#	Slide title	Key claim / evidence
1	Title — Coastal Sentinel 01 / Mycosoft ITDX26	Establish identity, handling, PI, date. No claim.
2	Why Mycosoft was selected — algorithms for future AI Referral to Selection notice. No performance claim.	
3	The droids are the product; this room is the replay mic	Scope: algorithm laboratory, not hardware demo.
4	Four bodies, one scenario	Mushroom 1 (terrestrial), Agaric (aerial), Psathyrella (maritime), Hyphae 1
5	Device roles and sensing domains	Modality × domain matrix. Deterministic acquisition + calibration + local lim
6	DIRTNet communications and failure recovery	Bitcoin-derived structure, no proof-of-work. Store-and-forward + Merkle rec
7	Rooted observation-to-action pipeline	Canonical schema. Content-hash raw data separation. Signed provenance
8	Task 12 · Pattern Analysis — equivalence classes	SSW/Map factors > baselines-first discipline, precision/recall + calibration +
9	Task 13 · Link Analysis — typed hypergraph on F	Relevance GNN + deterministic association. Counterfactual node removal
10	Task 8 · Courses of Action — constrained trajectory	Seven-agent hypothesis supportable as baseline rate as headline metric.
11	AVANI and human authorization	The gate G(E,φ,v,A,R). Action envelope fields. Human disposition.
12	MINDEX provenance and Merkle proof	Versioned model ID. Outcome-linked entries. Audit chain from decision to
13	Task 14 · Map Product — deterministic projection	With Minor training path. Fallback ladder labeled in UI.
14	Field run and signed replay	How the 6-minute film + observations JSONL were produced and signed.
15	Partition and node-loss results	Live counterfactual. Reconciliation within 300 s of restored contact.
16	Metrics and baselines	Grouped bootstrap, 5 seeds, held-out splits. Deterministic vs learned side-
17	Honest maturity and limitations	The six non-claims from the Known Limitations one-pager.
18	Follow-on experiment proposal	Three-stage: Algorithm replication → Government-in-the-loop field data →
